

NovaTech Solutions

Employee HR Policy Documents

Synthetic policy dataset created for RAG / AI Engineering practice

This document contains five fictional company policies designed for retrieval experiments. The policies include dates, thresholds, exceptions, approval workflows, and cross-document concepts to create realistic RAG test cases.

Included policies

- Leave & Time-Off Policy
- Remote & Hybrid Work Policy
- Employee Expense Reimbursement Policy
- Performance & Promotion Policy
- Information Security & Employee Data Policy

NovaTech Solutions — Leave & Time-Off Policy

Policy ID: HR-LEAVE-001

Effective Date: 1 January 2026

Version: 2.1

1. Purpose

This policy explains the types of leave available to eligible employees of NovaTech Solutions and the process for requesting and approving leave.

2. Annual Paid Leave

Full-time employees receive **24 days of paid annual leave per calendar year**. Employees joining during the year receive a prorated entitlement based on their joining date.

Annual leave should normally be requested at least **5 working days in advance**. Managers may approve shorter notice when business conditions permit.

Employees may carry forward up to **8 unused annual-leave days** into the following calendar year. Any balance above 8 days expires unless an exception is approved by HR.

3. Sick Leave

Employees receive **12 days of paid sick leave per calendar year**.

For an absence of **more than 2 consecutive working days**, the employee may be asked to provide appropriate medical documentation to HR.

Sick leave should be reported to the manager as soon as reasonably possible, preferably before the employee's normal start time.

4. Parental Leave

Eligible employees may take parental leave according to applicable law and company benefits rules.

Employees should contact HR at least **30 days before the expected start of parental leave**, where practicable.

5. Bereavement Leave

Employees may take **5 paid working days** following the death of an immediate family member. HR may approve additional unpaid or annual leave where circumstances require.

6. Leave Without Pay

Leave without pay may be approved in exceptional circumstances after available paid leave has been considered. Approval must be obtained from the employee's manager and HR.

7. Public Holidays

Company offices observe the public holidays listed in the annual holiday calendar. Public holidays do not reduce an employee's annual-leave balance.

8. Request Process

Leave requests must be submitted through the company's HR portal. The normal approval flow is:

Employee → Reporting Manager → HR system record

Employees should not assume leave is approved until the request has been approved in the HR system.

9. Questions

Questions about leave balances or eligibility should be directed to HR Operations.

NovaTech Solutions — Remote & Hybrid Work Policy

Policy ID: HR-WORK-002

Effective Date: 1 February 2026

Version: 1.4

1. Purpose

This policy defines expectations for employees working remotely or under a hybrid arrangement.

2. Hybrid Work Eligibility

Eligible full-time employees may work remotely for up to **3 days per week**, subject to team requirements and manager approval.

Certain roles may require more frequent office attendance because of customer meetings, laboratory access, security restrictions, or operational requirements.

3. Core Collaboration Hours

Employees working remotely must generally be available between **10:00 AM and 4:00 PM local time** for collaboration, meetings, and urgent requests.

Outside core hours, employees should maintain the working schedule agreed with their manager.

4. Home Office Requirements

Employees working remotely are responsible for maintaining a reasonably secure and professional workspace.

Company laptops must not be shared with family members or other unauthorized users.

Employees should use the company-approved VPN when accessing internal systems from an untrusted network.

5. Equipment

NovaTech provides an approved laptop and standard accessories to eligible employees. Additional equipment may require manager and IT approval.

Employees must report lost or stolen company equipment to IT Security immediately.

6. Remote Work Location

Employees must normally work remotely from their registered work location. Working from another country requires prior approval from HR, Legal, and Information Security.

7. Meetings

Employees should join scheduled meetings on time and remain reachable through approved communication tools during core collaboration hours.

8. Performance

Remote work is not an alternative performance arrangement. Employees are expected to meet the same performance, availability, security, and delivery standards regardless of work location.

9. Temporary Remote Work

Temporary remote work outside the normal arrangement may be approved for up to **10 working days** by the reporting manager. Longer arrangements require HR approval.

NovaTech Solutions — Employee Expense Reimbursement Policy

Policy ID: FIN-HR-003

Effective Date: 15 January 2026

Version: 3.0

1. Purpose

This policy explains which business expenses employees can claim and how reimbursement requests are processed.

2. General Rule

Employees may claim reasonable and necessary expenses incurred for legitimate business purposes.

Expenses should be approved in advance when the expected amount exceeds the employee's normal spending authority.

3. Business Travel

Employees traveling for business may claim approved transportation, accommodation, meals, and other necessary travel expenses.

Accommodation

The standard hotel limit is **■7,500 per night**, excluding applicable taxes, for domestic business travel.

A higher amount may be approved when standard accommodation is unavailable or when business requirements justify the additional cost.

Meals

The daily domestic business-travel meal allowance is **■1,200 per day** when meals are not provided by the company, client, or event organizer.

Local Transportation

Employees may claim reasonable taxi, public-transport, or approved ride-hailing costs when traveling for business.

4. Expense Submission Deadline

Expense claims must normally be submitted within **30 calendar days** after the expense is incurred.

Claims submitted after 30 days may require additional manager approval.

5. Receipts

Itemized receipts are required for individual expenses of **■1,000 or more**.

If a receipt is unavailable, the employee must provide an explanation and any available supporting evidence. Reimbursement is subject to manager and Finance approval.

6. Air Travel

Domestic air travel should normally be booked in economy class. Business class requires prior approval from a department head.

7. Personal Expenses

Personal entertainment, commuting between home and the normal workplace, fines, penalties, and expenses for unauthorized guests are not reimbursable.

8. Approval Workflow

The normal workflow is:

Employee → Manager → Finance

Claims may be returned if documentation is incomplete.

9. Currency Conversion

Foreign-currency expenses should be converted using the exchange rate shown on the corporate card statement or the approved expense platform. Supporting evidence should be retained.

10. Questions

Questions about reimbursement should be submitted through Finance Helpdesk.

NovaTech Solutions — Performance & Promotion Policy

Policy ID: HR-PERF-004

Effective Date: 1 April 2026

Version: 2.0

1. Purpose

This policy defines the company's performance-review and promotion process.

2. Performance Review Cycle

NovaTech operates an annual formal performance-review cycle.

Employees also receive a **mid-year development review** focused on progress, goals, development needs, and feedback.

3. Goal Setting

At the beginning of each review cycle, employees and managers agree on measurable objectives.

Goals should normally include:

- Business outcomes
- Role-specific responsibilities
- Collaboration or leadership behaviors
- Professional development

4. Performance Ratings

The company uses four performance categories:

1. Exceptional
2. Strong
3. Successful
4. Needs Improvement

A rating of "Strong" indicates that the employee consistently exceeds expectations in important areas but does not necessarily imply promotion.

5. Promotion

Promotion is based on sustained performance and evidence that the employee is already demonstrating capabilities associated with the target level.

Promotion decisions may consider:

- Scope of responsibility
- Business impact
- Technical or functional expertise

- Leadership and collaboration
- Consistency of performance
- Role availability and organizational requirements

An employee is **not automatically promoted because they have completed a fixed number of years in a role.**

6. Promotion Review

Employees may express interest in promotion during performance discussions. Managers are responsible for discussing readiness and evidence with the employee.

Promotion recommendations are reviewed by the relevant leadership panel and HR.

7. Performance Improvement

Employees whose performance is below expectations may receive a documented development or performance-improvement plan.

The plan should define:

- Areas requiring improvement
- Expected outcomes
- Support available
- Review dates

8. Feedback

Managers should provide timely feedback throughout the year rather than waiting for the annual review.

Employees may also request feedback from peers and project stakeholders.

9. Calibration

Performance ratings may be reviewed through a calibration process to promote consistency across teams.

10. Questions

Employees should first discuss performance and promotion questions with their manager and may contact HR Business Partners for process clarification.

NovaTech Solutions — Information Security & Employee Data Policy

Policy ID: SEC-HR-005

Effective Date: 1 March 2026

Version: 1.8

1. Purpose

This policy establishes requirements for protecting company information and employee personal data.

2. Company Devices

Employees must use company-approved devices to access restricted company systems unless an exception has been approved by IT Security.

Devices must use approved security controls, including screen locking and endpoint protection.

3. Passwords and Authentication

Employees must not share passwords.

Multi-factor authentication is required for systems designated as critical or sensitive by Information Security.

Employees must report suspected credential compromise immediately.

4. Personal Data

Employee personal data should be accessed only for legitimate business purposes.

Examples of employee personal data include:

- Home address
- Personal phone number
- Bank information
- Government identification information
- Performance records
- Leave records

Access should be limited according to role and business need.

5. Data Sharing

Employees must not send confidential company information to personal email accounts or upload it to unapproved cloud-storage services.

External sharing of confidential information requires authorization under the company's information-classification rules.

6. Security Incidents

Employees must report suspected security incidents to the IT Security team as soon as possible.

Examples include:

- Lost company laptop
- Phishing link clicked
- Accidental disclosure of confidential information
- Suspected account compromise
- Malware alert

7. Remote Work Security

Employees working remotely must avoid using public computers to access company systems.

Public Wi-Fi should be used only with approved security controls such as the company VPN.

8. AI Tools

Employees must not enter confidential, restricted, or personally identifiable employee information into public generative-AI tools unless the tool and use case have been approved by Information Security and Legal.

Approved enterprise AI tools may be used according to their specific data-handling rules.

9. Retention

Employee records must be retained and deleted according to the company's records-retention schedule and applicable legal requirements.

10. Questions and Reporting

Security concerns should be reported through the IT Security incident channel. Privacy-related questions should be directed to the Privacy Office.
